SLOT-TOGETHER CRAFT

Standing Paper Christmas Tree

Print on cardstock. Cut two matching trees and join the center slots.

A: slit from the top to the middle

B: slit from the bottom to the middle

1. Color both trees on the front and back.
2. Cut around the outside edges.
3. With adult help, cut the marked center slits.
4. Hold the trees at a right angle. Slide B down over A.
5. Stop when the bottom edges line up.

Tip: widen each slit slightly only if your cardstock is thick.
